

New Challenges and Directions for Internet Routing in the AI Era

Side Meeting@IETF 126, Vienna
9:30-11:00 Wednesday, July 22, 2026

Qi Li

Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- [BCP 9](#) (Internet Standards Process)
- [BCP 25](#) (Working Group processes)
- [BCP 25](#) (Anti-Harassment Procedures)
- [BCP 54](#) (Code of Conduct)
- [BCP 78](#) (Copyright)
- [BCP 79](#) (Patents, Participation)
- <https://www.ietf.org/privacy-policy/> (Privacy Policy)

IETF 125 Recap

First IDRNG side meeting successfully held

✓ 50 in-person + 40 remote participants

✓ Topics covered

- Routing security & resilience
- AI-assisted / agentic routing
- Deployment & interoperability
- Research agenda and community building

✓ Community milestones

- GitHub repository launched
- IDRNG mailing list established
- Hackathon activities initiated

**IDRNG**
Next-Generation Inter-Domain Routing Architecture and Protocols (IDRNG)
8 followers guoyangf19@tsinghua.org.cn

README.md

IDRNG - Next-Generation Inter-Domain Routing Architecture and Protocols

About

This is the repo for IDRNG-related materials.

IDRNG is short for Next-Generation Inter-Domain Routing Architecture and Protocols.

Mailing List: idrng@irtf.org. Subscribe to the list at <https://mailman3.irtf.org/mailman3/lists/idrng.irtf.org/>.

IDRNG Related Documents

The proposed charter for IDRNG can be found [here](#).

A list of pointers to documents that are related to IDRNG can be found [here](#).

Past and Ongoing Meetings

- [IETF 126 Meeting](#) — July 22, 2026, Vienna. (Upcoming)
- [IETF 125 Meeting](#) — March 18, 2026, Shenzhen. [slides](#) and [minutes](#) have been uploaded.

How to contribute

Discussion is mainly done in the mailing list. If you have new inputs, send them to the [mailing list](#) first.

If you have any suggestions/questions or just show your interest in this topic, you can send an email to [Shenglin Jiang](#), [Yangfei \(Basil\) Guo](#), or idrng-owner@irtf.org.

Meeting agenda and materials: <https://github.com/IDRNG/125meeting>

Agenda

- **9:30-9:35 Host (5 mins)**
- **9:35-9:55 IRTF/IETF OPS Transfer between NMRG/NMOPS - Exploring Collaboration Opportunities**
Thomas Graf – Swisscom (20 mins)
- **9:55-10:15 Opportunities and Challenges in AI-driven BGP Engineering for Anycast Routing**
Vasilis Giotsas – Cloudflare (20 mins)
- **10:15-10:35 Current Solutions and Challenges in Routing Security**
Kotikalapudi Sriram - NIST (20 mins)
- **10:35-11:00 QA and Discussions (25 mins)**
